Phantom Hole

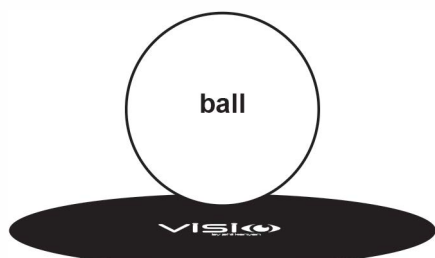

*not to scale

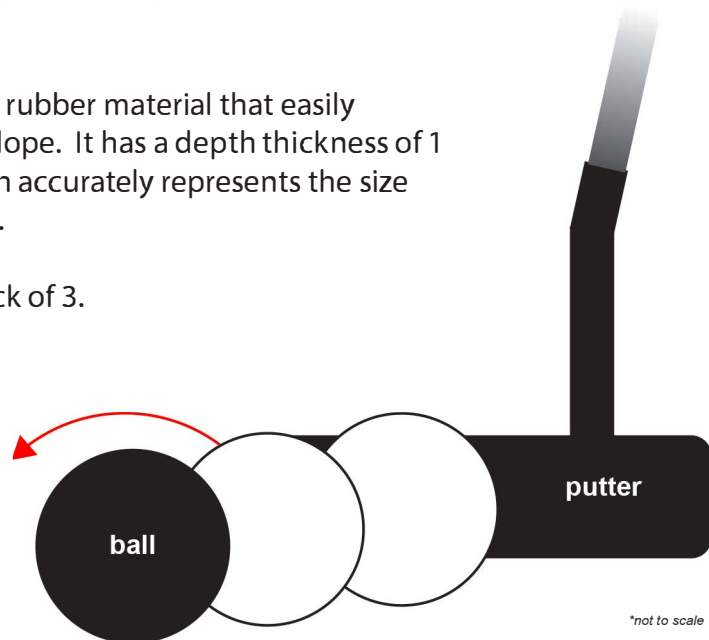

The Visio 'Phantom Hole' is designed for use at any location on the putting green enabling the player unlimited choices putting possibilities while practicing. The holes may be used both indoor or outdoor - whatever the weather conditions.

The holes have been made from a flexible rubber material that easily contours to any putting surface and any slope. It has a depth thickness of 1 mm and measures 4.25" in diameter which accurately represents the size of a real hole used in most putting greens.

The Visio 'Phantom' Holes come as a pack of 3.
