

Parts:

- Putting Mirror (Steel)
- Protective Case

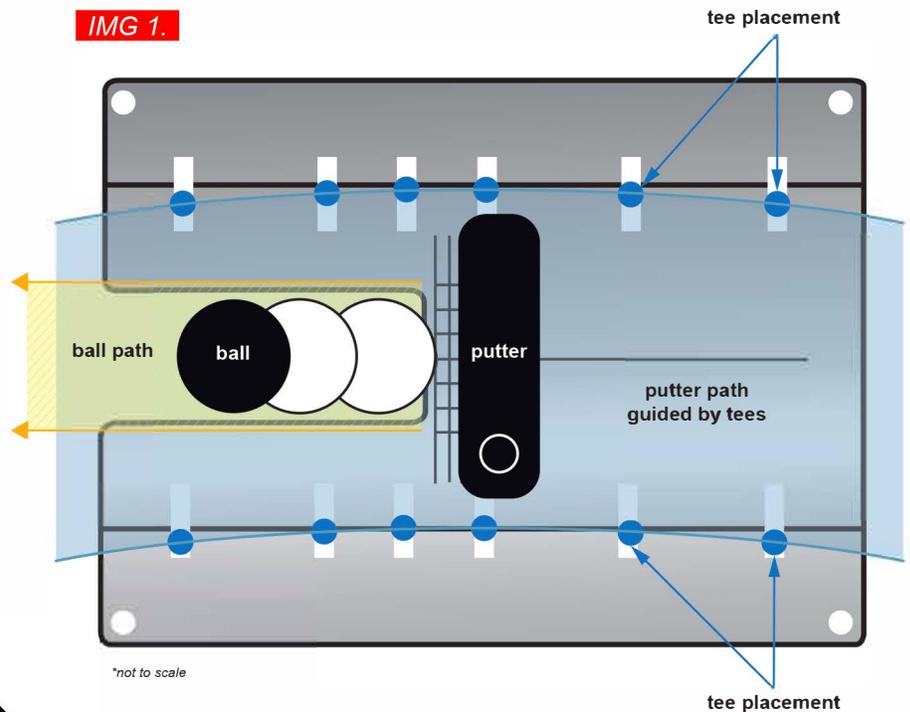

TOP VIEW

The Visio Putting Mirror (Steel Edition) weighs 28oz and provides feedback on a series of key parameters in your set-up and stroke that will help you groove a consistent and repeatable putting stroke.

The black lines at the center of the putting mirror are alignment markings to ensure square putter face alignment at set up. **IMG 1.**

Twelve slots are available for tee pegs to create drills that train strike and guide the stroke path. The width of the slots accommodate various arc types. **IMG 1.**

TIPS

The mirror provides a clear view of head, eyeline & body alignment to assess these positions at both set up and during stroke.

The Visio Putting Mirror reflects a full and clear view of your shoulder alignment to assess body alignment at both set up position and during the stroke. It also gives you a clear and full view of your head position for feedback on eye-line at set up and eye/head movement during the stroke. **IMG 2.**
